

## Brake Pads

In today's fast-paced, stop-and-go world, the kind of brake pads used on your vehicle makes a big difference. When you put your foot on the brake pedal, you're counting on the brake pads to do their job - slow you down. With Genuine Toyota Brake Pads, you can count on a correct fit, top performance and lasting quality. Here's why you should use Genuine Toyota Brake Pads:

- ✓ Genuine Toyota Brake Pads are manufactured with materials designed specifically to maintain the dynamics engineered in Toyota's braking systems.
- ✓ Backing plates of Genuine Toyota Brake Pads are precision-machined to allow brake pads to move freely within the calipers for smooth and efficient operation.

For brake replacement on your Toyota, always ask for Genuine Toyota Brake Pads.
